

Step 1

Step 2

Guohong Zhang - zhangh1
Buckley Deng - deng2228
Yanbo Liu - lu22788
Jiawen Luo - lu22267

Then, to ensure we can successfully capture Step 3 Mapping of Binary M:N Relationship Types, we decide to move Step 2 Options for Mapping Specialization and Step 4 Mapping of Union Types forward, before we start mapping relationships.

On the left side is our step by step procedure with changes at each step only, the rest of the relations do not change. On the right side is our overall graph reflects the final state, with color distinguished of each step.
